# Jim Hears

*A Story About Cochlear Implants for  
Children*

*By Cameron Ball*

Pam and Jim were best friends.

They had a lot of fun.

They liked to smile,

but they could not talk.

Jim was deaf. He could not hear.

This made Pam sad. Pam wanted to help Jim.

Pam thought and thought...

What would help Jim hear?

One day, Jim came to work with a big smile.

The doctor had put a neat tool on his ear.

It helped Jim hear! Wow!

He started talking more too.

Now Pam and Jim could talk and play all day!

The End.
